Top Creative Nails: Website, SEO & Growth Plan

830 Mayfield Rd, Suite 500, Grand Prairie, TX 75052 · (972) 264-2744 · www.topcreativenails.com · Prepared October 10, 2026

Summary. The new website is live and technically stronger than the top local competitor, SkyHigh Nails Spa. Where Top Creative falls behind is outside the website: Google reviews (4.3 stars from 84 vs SkyHigh's 4.8 stars from 1,398), no published prices, and no online booking. The 12-week plan below closes those gaps. The main target is reaching a **4.6-star Google rating by Jan 3, 2027** (about 63 new 5-star reviews).

1. What was built

Item	Details
Website	22 pages: home, services overview plus 10 service guides (acrylic, dip, gel, classic manicure, pedicure, French tip, nail art, nail repair, eyebrow waxing, kids), 24-photo gallery, about, reviews, visit & hours, FAQ, how to book, a dip vs acrylic vs gel guide, a Spanish page (/es/) and a privacy page.
Hosting & domain	Vercel (free), GitHub repo triet-bot/elvis-website. Domain registered at Squarespace and pointed to Vercel. Main address is www; the bare domain redirects to it.
Photos	The salon's own Google Maps photos, professionally retouched (watermarks removed, designs unchanged). The hero image is the real salon interior.
SEO built in	Unique title and description on every page, nail-salon business data for Google, FAQ and breadcrumb data, sitemap, robots.txt, llms.txt for AI search, location tags, Spanish version linked for search engines, 100% image alt text, fast pages with self-hosted fonts.
Booking today	"Book now" buttons call the salon; walk-ins welcome. The buttons will point to online booking once a platform is chosen.

2. SEO audit: where the site stands

Passing

- HTTPS, clean redirects, valid sitemap
- Unique title, description and one H1 on every page
- Valid business, service and FAQ data for Google
- 0 broken links, 0 images missing alt text
- Fast: about 36 KB pages, 2 asset files
- Spanish page and comparison guide added

Still open

- **No prices** on the site (waiting on the owner)
- **No online booking**
- **No analytics** to count calls and visits
- Google Business Profile website link is broken
- Sitemap needs resubmitting in Search Console
- No directory listings (Yelp, Apple, Bing) yet
